## JOB POSTING

### Potential Construction Jobs

Sagkeeng First Nation and DAL Projects are compiling a list of Sagkeeng Band members who are qualified, able and interested in working on various construction jobs associated with shoreline (RipRap) restoration projects. These projects have not been awarded to any construction companies at this point but in order to facilitate the successful construction companies with their hiring for various positions we have agreed to collect résumés from interested parties.

It should be noted that for most positions we will be forwarding your résumé and contact information to the successful companies for their use at the appropriate time. There is no guarantee that those providing their information will be interviewed or hired as we do not control the job requirements or have direct input into their hiring process, but we will forward your information to them. By submitting your name and personal information, you consent to us providing the successful companies with copies of your résumé for employment purposes.

While a complete list is not available at this time the first jobs that are anticipated to be hired are listed below. **Please make sure that you list all types of equipment you are able to legally operate, as well as any certificates, licences, or additional training you think is relevant to the position you are applying for. If you own your own equipment, are able to operate it and it is in good working order, please mention the type of equipment in your résumé or cover letter.**

Job	Qualifications	Hours
Equipment Operators	Able to operate various pieces of equipment such as jackhammers, excavators, trucks, front end loaders, tractors, truck and trailer assemblies, etc. It is important that you list all equipment you can operate.	Various hours during the day and evening and may involve weekend and overtime work.
