

Sagkeeng Fiber Optic Cable Installation Phase One

Installation: Late September 2018

Sagkeeng Anicinabe is in preparations for infrastructure upgrading to prepare for future internet access and telecommunications services.

The first phase of fiber optic cabling plan for Sagkeeng Anicinabe is going to be underway in late September 2018, this entails connecting 12 pairs of telecommunications grade fiber optic cable from the Superstore, to the Arena, then to Department of Public Works, Band Council Office, Bus Garage, Water Works, Old Health Centre, Gaming and Jordan's Principle building.

External vendors and local labour will be used to complete this first phase of fiber optic cabling interconnecting the Band entities. Phase Two is currently being planned and designed, this information will become available as it becomes approved.
